### POWER SKILLS

- React is Node is •
- Express is Mongodb •
- Javascript CSS3 •
- HTML5 Bootstrap •
- Git Teamwork •
- Confidence •
- Communication Skill

#### **CERTIFICATIONS**

Full Stack Web
 Development in MERN

#### PROJECTS

#### ShopyTrends ☑ E-commerce Shopping Website

08/2024 - 09/2024

**ShopyTrends** is an e-commerce website focused on dress shopping, allowing customers to purchase products and sellers to list their offerings. The platform is divided into three modules: User, Seller, and Admin.

- User Module: Customers can browse, add products to their cart, view product details, make payments, and manage their account. Features include product purchasing, cart management, a detailed product view page, payment processing, user login, and account updates.
- **Seller Module:** Sellers can sign in to manage their product listings, view details of their products, and track who has purchased their items, including payment and shipping statuses. Sellers also have the ability to update their account information.
- Admin Module: Admins have oversight over both users and sellers. They can view registration details, seller product listings, and track the status of purchases (paid, canceled, etc.). Admins manage the overall functionality and data flow of the site.

The website offers a responsive design with both dark and light mode, providing a seamless and user-friendly experience across devices.

#### **Tools Used:**

- Frontend: React.js, React Bootstrap, CSS3, Tailwind CSS, Redux
- Backend: Express.js, MongoDB
- Cloud & Deployment: Git for version control, Netlify for frontend deployment, Render for backend, and Cloudinary for image storage.

#### **OBJECTIVE**

Aspiring Full Stack Developer specializing in the MERN stack, with an MSc in Computer Science. Skilled in designing, developing, and implementing responsive websites with a strong focus on user experience. Proficient in HTML5, CSS3, JavaScript, React.js, Node.js, Express.js, and MongoDB. Demonstrates excellent communication skills and a strong aptitude for teamwork. Successfully completed a capstone project, *ShopyTrends*, an e-commerce website built using the MERN stack.
